No. IV.] Forty-First Edition. [Jan. 1856.

WHOLESALE CATALOGUE

FOR

NURSERIES & DEALERS

COMPRISING

FRUIT SEEDS, ORNAMENTAL-TREE AND SHRUB SEEDS,

STOCKS FOR ENGRAFTING, SCIONS AND CUTTINGS,

Fruit & Ornamental Trees & Shrubs,

INCLUDING EVERGREENS,

FLOWERING PLANTS, BULBOUS ROOTS, &c. &c.

LINNÆAN GARDEN & NURSERIES,

WM. R. PRINCE & CO.

PROPRIETORS.

N. B.—Orders should be directed to us at Flushing, N. Y., and sent per mail.

REMARKS TO PURCHASERS.—If there is any article in this Catalogue apparently dearer than offered elsewhere, the purchaser will please to name it, our object being to serve our correspondents at the lowest rates. As there will arise instances where some sizes of trees, &c., will run short, we will, in such cases, send the next size to it. Where Tree and Shrub Seeds are wanted that comprise but small bulk, we can transmit them by mail, with dispatch, and at trifling postage.

COST OF TRANSPORTATION.—The expense of transportation from New York to Dunkirk, on Lake Erie, by the Erie Railroad, which takes but eighteen hours, is trivial in comparison with the quality, prices, and superior packing of our Trees and Plants, and on invoices of large amount, we would agree to divide that cost.

Baker & Godwin, Printers, No. 1 Spruce St., N. Y.

41st Edition—January, 1856.

WHOLESALE CATALOGUE

FOR

Nurseries and Dealers.

WM. R. PRINCE & CO.

NURSERIES—FLUSHING, N. Y.

N. B.—Orders should be directed to us at Flushing, L. I., and sent per mail.

REMARKS TO PURCHASERS.

As we are gradually winding up two of our Nurseries, we offer great advantages to Nurseries requiring supplies, and equally as good articles are seldom attainable at such moderate rates, and we will sell our Fruit Stocks, young Evergreens, and other young Trees and Shrubs in quantities, to other Nurseries.

We have taken the precaution to plant large quantities in our cellars, for the purpose of supplying orders, during the winter, for the South or elsewhere, and we can forward all orders to the West and North, at the opening of Spring, after the tenth of February. Roses, Gooseberries, Raspberries, Currants, Blackberries, Grapes, Strawberries, Osier Cuttings, and Cuttings of all Trees and Shrubs, that grow in that way, Grafts of all kinds, and Tree and Shrub Seeds, can be forwarded during the Winter, if so desired. Those who wish a general Assortment of Seeds, should give us a standing order, to be supplied from time to time, as fast as can be done.

As the demand for these *Seeds* and *Stocks*, is so much greater than can be supplied, the following are the only terms on which they can be furnished.

The orders for *Seeds*, can be accompanied by Cash, for the amount ordered, if they are wanted immediately, but if not wanted till Spring, they will be retained if one-third is paid on account.

The orders for *Stocks* should be accompanied by 20 per cent in Cash, the balance to be paid at the time it is desired they should be forwarded, between this and May next. These *precise terms*, apply only to *Seeds* and *Stocks*, and not to the sales of other Trees, Plants &c. which will be sold for either *Cash* or *Credit*, as may be arranged to the convenience of the purchaser.

We desire purchasers to write plainly, and to state explicitly what they want and how they wish to make the payments, by cash or otherwise, and if part or all is wanted on credit, to state what notes or securities will be given therefor, and when payable, and to name their references.

In any case where it is inconvenient to the purchaser to remit the whole amount, he can remit one-third or one-half, and we will collect the balance through the Express Company. Remittances can be safely made by a check or draft, per mail, and Bank notes can be sent by the American Express, or Adams & Co. who will insure safe delivery, if requested. We pack all articles so securely, that they go safely to California, Oregon, South America, all parts of Europe, and to every section of our own Country, and if any loss occurs, it is from the neglect of others. We will deliver the packages to any Express or Transportation Line, or ship them to any port designated, and take receipt therefor, and forward it to the purchaser, and there is consequently the best security for their delivery; after which they are at the risk of the purchaser.

FRUIT SEEDS.

These are kept in proper condition for planting, and are not allowed to get dry and valueless.

	per lb.	per qt.	pr peck.	bushel.
Apple,	$ 50		$4 00	$12 00
Almond, Sweet, 2 kinds,	1 00		4 00	14 00
Apricot, $1 per 100 pits, $5 per 1000.				
Cherry, Mazzard,	75	75	5 00	
——— **Duke and Kentish,**	1 00	1 00		
——— **Dwarf,**	2 00	2 00		
——— **Mahaleb,**	5 00			
Chestnut, Large French,			4 00	14 00
——— **American,**			2 00	8 00
Filbert,		1 00		16 00

Grape, Isabella, Catawba, and Clinton,	6 00			
Hazelnut,		50		
Madeira Nut, or English Walnut,		50	3 00	10 00
Peach, price variable,				2½ to 3
Pear,	5 00			
Plum, Large Blue, or Horse, for Stocks,	75	75	4 00	10 00
Prune,	1 00	1 00	6 00	
Quince, Angers, for Stocks,	5 00			
——— **Orange,**	4 00			
Raspberry, Red and White,				
Strawberry, Alpine Running, and Bush, White and Red of each,				
Walnut, Black, ——— **Butternut,** ——— **Shellbark,**	prices variable.			

Prices of Seeds.—We do not wish to supply seeds of any kind to a less amount than 50 cents to $1; but where we state that price for a package, we give such quantity as is worth the money. We have not time to put up smaller parcels, and in fact, no Nursery can need less than $1 worth of any of these Seeds.

EVERGREENS.—SEEDS.

STOCKS FOR ENGRAFTING.

	per 100.	per 1000.
APPLE, 1 year,.....	$1 00	$ 5 00
——— 2 years,.....	1 25	$6to$9
DOUCIN APPLE, 2 years,.....	3 00	25 00
PARADISE APPLE, 1 year,.....	2 50	20 00
——— 2 years,.....	3 00	25 00
CHERRY, MAZZARD, 1 year,.....	1 25	5 to 8
——— 2 to 3 years,.....	2 00	15 00
MAHALEB, very fine, for Dwarfs or Standards, 1 y'r,	2 50	18to20
——— 3 feet,.....	3 50	25 00

N. B.—The Mahaleb is a Northern Tree, much more hardy than the Mazzard for Stocks. It should never be older than the second year for Stocks, as it grows very rapidly. It forms a dwarf, bushy tree, if so pruned, of the shape of a large pyramid Pear on Quince; but if left to itself unpruned, it forms a beautifully shaped tree of about 16 feet in hight; and in either form it will produce abundant crops.

PEACH, 1 year,.....	$3 00	$20 00
PEAR, 1 year,.....	2 00	15to18
——— 2 years,.....	2 50	20to25
——— 3 years,.....	4 00	30 00

N. B.—No Pear blight is ever known in this region.

Almost Ph. Nectarine & Almond
Mulberry Chestnut

FRUIT TREES.

This Catalogue comprises only such Trees, Shrubs and Plants as we actually possess, and have ready for delivery, and is not made up, as many Nursery Catalogues are, with a mass of articles they never possessed.

The Fruit Trees we offer are stocky and well branched, they being grown in ample space, and our Pears on the Angers Quince stock, are especially so; and not of the *Currant-bush character called trees* in some Nurseries; which, from being grown only a few inches apart, are, as a consequence, weak and unhealthy. The same remarks will apply to our Ornamental Trees; whereas a mass of *spindling apologies called trees* are continually hawked throughout the country, they being too worthless to command any sale at home. When orders are sent for Fruit Trees in quantity, we expect them to comprise a fair average assortment; the purchaser can send a list of names sufficiently extensive, designating which he prefers having the most of, and we will execute the order as nearly as possible, sending more or less of each, as convenient. As a rule, we propagate far the most of the leading and best known varieties.

Conditions.—Purchasers are entitled to the trees at the annexed prices *only* when the quantity specified is ordered. When smaller quantities are wanted, they will be supplied to the Trade at a discount from our General Catalogue prices, in proportion to the extent of the order.

Facilities for Transportation.—The means of transportation from New York (whence we expedite all packages) to all parts of the Union, are more frequent and rapid than from any other point, and it requires but 18 hours by railroad to Dunkirk or Buffalo, on Lake Erie.

	per 100
APPLE, Standards, 5 to 7 feet,	$14 00
——— 6 to 7 feet,	17 00
——— 6½ to 8 feet,	20 00
